## SUMMARY ANNUAL TOURISM REPORT – SEASON 2016-17

### INTRODUCTION

1. This report covers the period from July 2016 to June 2017<sup>1</sup>. This year proved to be another record year for passengers with a total of 8,946 tourists arriving on 68 cruise ships (also 68 last year - the record of 70 cruise ship visits was 2008-09). This year there was an increase of 159 passengers. 5 visits were cancelled –2 of the planned visits by NG Orion due to engine failure and dry-dock repair and 1 by Ocean Diamond due to poor weather, and 2 of the Akademik (OneOcean) vessels at the start of the season.

2. Over this season 15,377 individuals visited South Georgia, this figure includes cruise ship passengers, crew and expedition staff and yachts. There was a total of 8,946 cruise ship passengers, 890 expedition staff (average ratio 1:10), 5,459 crew and 11 others (observers etc).

### Part 1: CRUISE SHIPS

**Cruise Ship Visit Summary.** A total of 23 (equal to 2016-17) different cruise ships made 68 (also 68 in 2015-16) separate visits to South Georgia during the 2016 - 2017 season. The *Polar Pioneer* made the most trips with 5. Most other ships visited on 2 to 4 separate occasions. *Seabourn Quest* was (as per 2016-17) the largest passenger carrying ship this season with 435 passengers. Table 1 summarises the cruise ship activity since 1999.

**Table 1. Summary of cruise ship voyages 1998/99 to 2016/17**

**Cruise Ship Voyage and Passenger Number Trends.** There were no new vessels this season. *Sea Explorer 1* arrived with a new name - *Hebridean Sky*. There was one new tourist operator Antarctic XXI who chartered *Ocean Nova* for their trip. A summary of vessel visits and passenger numbers is at Figure 1.

**Figure 1. Cruise ship Visit and Passenger Numbers 1998 to 2017.**

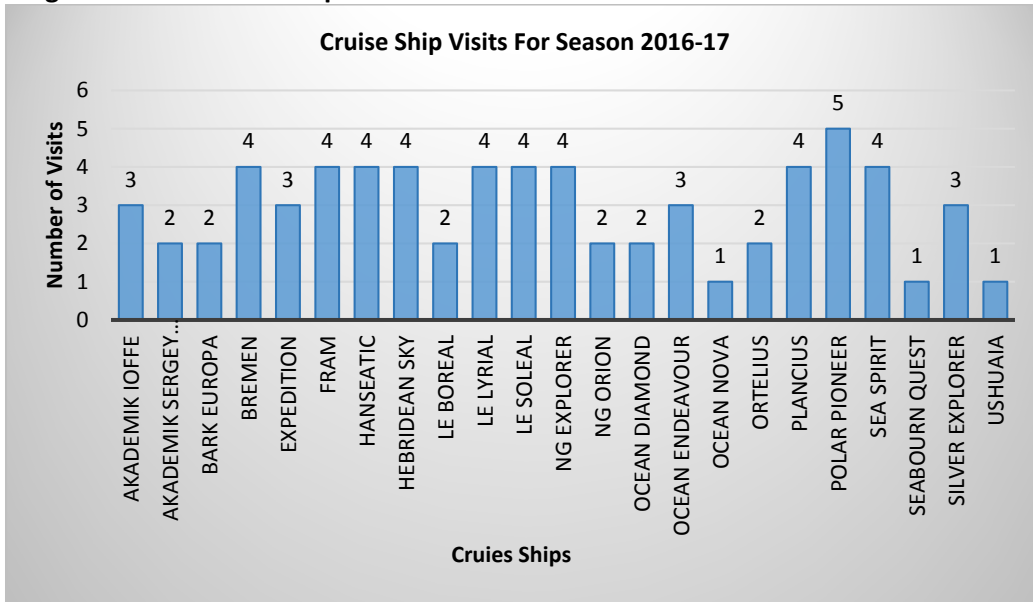

**Passengers and Cruise Ship Visit.** The breakdown of total passengers numbers by cruise ship visits is shown at Figure 2, with *Le Lyrial* and the *Fram* both totalling the most passengers over the season. The number of separate visits by each cruise ship is shown at Figure 3, *Polar Pioneer* with the most separate visits at 5.

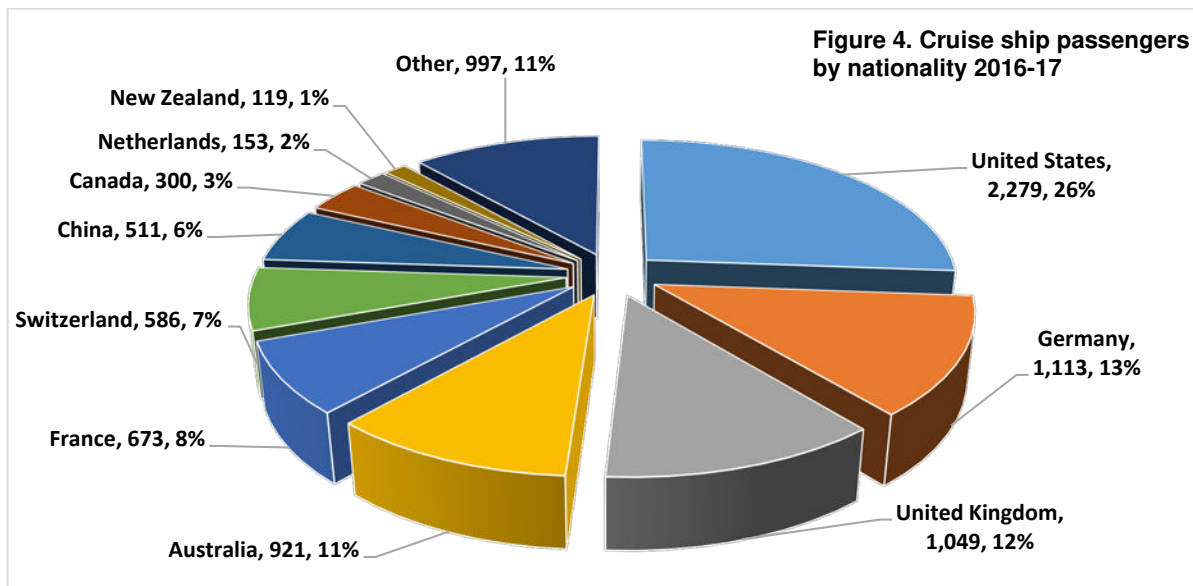

**Figure 2. Total Passenger Numbers by Cruise Ship Season 2016-17**

**Figure 3. Total Cruise Ship Visits Season 2016-17**

**Passengers.** For this reporting period there were a total of 62 passenger nationalities. The top ten nationalities represent approximately 89% of the overall passenger numbers as shown in Figure 4 below with all remaining nationalities adding to 11% of the total. The majority of passengers came from English speaking countries. A Comparison of 2016-17 season passengers by nationality to 2015-16 season is show below. (The passenger nationality figures presented below do not include the data from the final 4 PVRs *NG Explorer x 2*, *Hebridean Sky x 2* and *Plancius*).

**Figure 4. Cruise Ship Passenger Nationality Composition Season 2016-17**

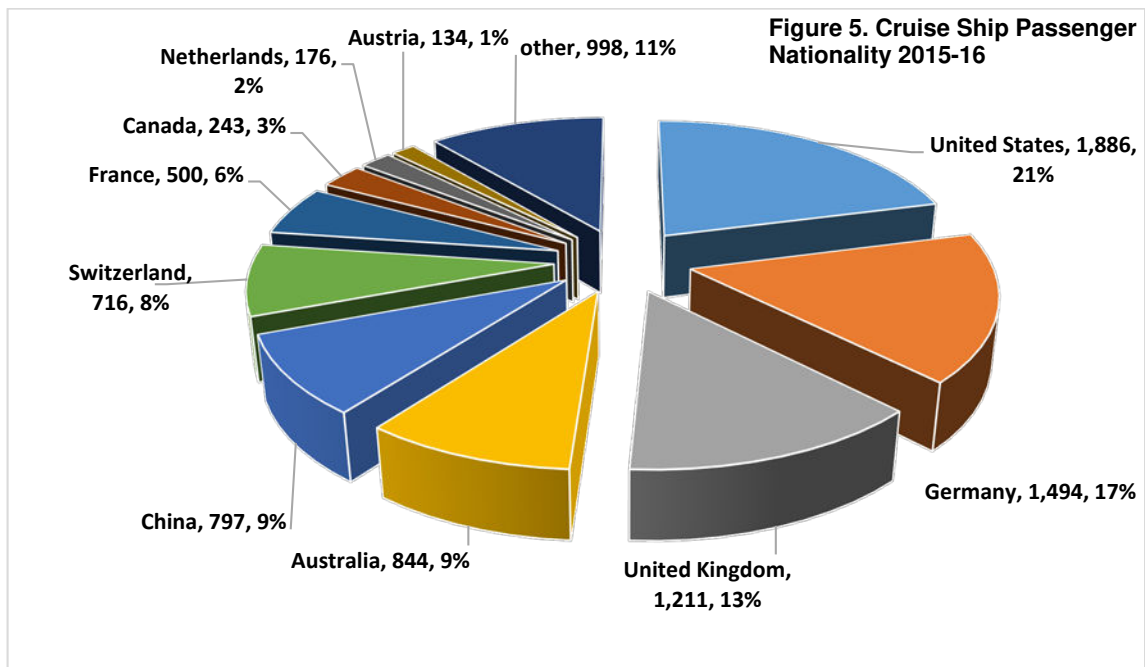

Figure 5. Cruise Ship Passenger Nationality Composition Season 2015-16.

**Expedition Staff.** There was a total of 906 expedition staff (915 in year 15/16) from a total of 42 countries (41 in year 15/16) with an overall ratio of approximately one staff member to each ten passengers. The nationality breakdown was broadly the same as last year. The majority of staff were American with 188 staff (21%), followed by Canada with 124 staff (14%), Germany with 108 staff (12%), United Kingdom with 103 staff (11%), Australia with 60 staff (7%) and France with 50 members of staff (5%).

**Cruise ship Crew.** There were 5,598 members of crew from 73 nationalities. As in the previous years of the crew composition the majority were from the Philippines with 2,908 (52%).

**Cruise ship landing sites prior to Arrival in South Georgia.** Of the 68 cruise ship visits, 52 landed in the Falkland Islands prior to coming to South Georgia (previous season 50). 11 came directly from the Antarctic, either the Antarctic Peninsula or associated islands. The remainder from Montevideo and Ushuaia.

**Cruise ship landing sites Post South Georgia.** - Of the 68 cruise ship visits 47 went on for their next landing within Antarctica or associated islands, 14 ships went on to land in the Falklands, 3 vessels went to Tristan da Cunha, 1 to Ushuaia, 2 to Montevideo, and one to Capetown.

**Passenger numbers on visiting vessels.** Those ships visiting with between 50 and 200 passengers on-board represents 91% of the total over the season, cruise ships with a greater number of passengers than 200 was 9%. Table 2 shows the breakdown for season 2016-17.

**Activities Undertaken.** A total of 56 different sites were visited by cruise ships during the 2016-2017 tourist season. The variety of activities undertaken at these sites and passenger numbers is summarised at Table 3. Boat landings by Zodiac recorded the highest activity number with 37,843 passengers landing by small boat. This number rises to 43,892 when crew, staff, others are included.

The Shackleton walk still remains the most popular extended walk. The trend for access for the Shackleton EW is shown in Figure x with 828 (9.3% of overall visitor numbers) passengers taking part this season.

**Kayaking.** Short kayaking trips remains popular with Hercules Bay (171) and Grytviken (166) being the most popular sites.

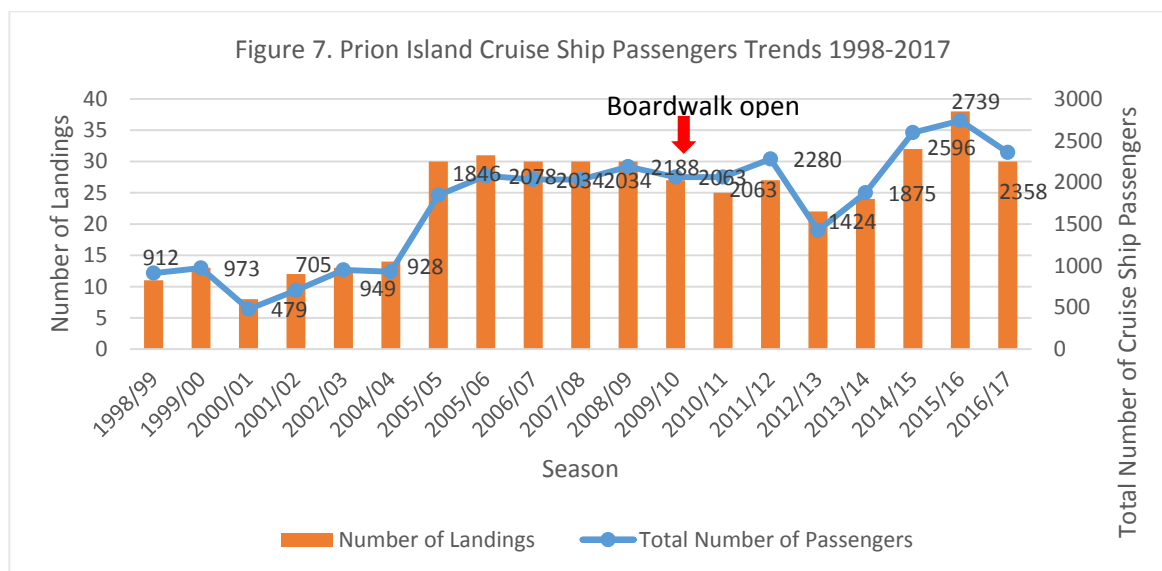

**Table 6: Kayaking activity season 2011/12 to 2015/16**

Year	Total of number of short kayak trips taken	Number of Sites

2013/14	612	23
2012/13	462	29
2011/12	209	15

**Diving.** Scuba diving was undertaken by passengers, staff and crew at 11 sites with a total of 53 individuals taking part in this activity.

**Cruise Ship Visit Sites of Particular Interest**

**Prion Island.** The trend for numbers of passengers and visits has fallen this season. The total number of small boat landings this season has fell from 38 to 30, while the total number of passengers fell by 381 (Figure x). When including crew and expedition staff this figure is 2,737 (last season 3,174).

**Grytviken and King Edward Point.** All cruise ships visited Grytviken, this is part of the customs and tourism clearance process. The first cruise ship of the season was the Sea spirit on the 27 October 2016 with 101 passengers, and the last ship, *Plancius*, on the 2nd April 2017 with 46 passengers (although failed to land due to weather conditions).

**Grytviken Church.** The church at Grytviken was used on 7 separate occasions for specific organised events ranging from a wedding to Christmas carol services, music renditions and a service of remembrance. 2 requests had to be turned down owing to re-decoration works at the time.

**Post Office.** The Post Office was located on board 8 cruise ships this season (13 last season). The ‘Enduring Eye ‘ Hurley Exhibition which includes original lantern slides on loan from the Royal Geographical Society remained open this year in the former Slop chest (new Post Office building).

**Medical Assistance.** During this season there were 5 recorded events that required medical support, 2 of these resulted in medical assistance from King Edward Point Station (in the previous year it was 9). Support from KEP was declined in 2 cases and not available in another.

### General Cruise Ship Matters

**Cruise Ship Bird Strikes.** The Post Visit Report forms contain a section requiring the Permit Holder to provide any detail of bird strikes/bird collision with the ship. There were 107 recorded incidences of birdstrikes this season (last season 21) from the 15 vessels which reported them. The comments received during this season from cruise ships are detail below (Table 7): Additionally 1 King Penguin was hit by a zodiac propeller and killed.

**Table 7. Incidental bird mortality vessel strikes by date 2016-2017.**

**Seals.** This season there were no reported incidences of passengers receiving fur seal bites. There were 2 recorded incidents of fur seal entanglements. One fur seal was found entangled in green fishing net at Godthul. The landing party removed the net themselves. Another was found at Prion Island with plastic rope around its neck. It was also recorded that at Prion Island 6-7 dead pups were sighted on 18 January along with an equal number with an 'eye disease'. One Fur Seal was killed by a zodiac propeller at Possession Bay.

**Biosecurity Failures.** 16 vessels, yachts included, were recorded as having some kind of biosecurity failure. Most are recorded as being 1-4 failures per vessel. These included, mud on the soles of boots and plant material, seeds or grass stuck to Velcro fasteners. The numbers of passengers checked per vessel ranged from 10-100%. Unsatisfactory cleaning of boot soles was the most common problem. The second most common problem was organic material entwined in Velcro fastenings

**Expedition Leader (EL) Briefings.** This season 16 new ELs were briefed at KEP (previous year it was 11).

**New Operators, Vessels and Observers.** There was one new operator this season Antarctic XX1 who chartered the cruise ship *Ocean Nova*. A Government observer embarked to monitor expedition staff procedures and all was found to be satisfactory.

**Post Visit Reporting.** Of the 68 cruise ship visits this year all have returned Post Visit Reports. All were completed to a good standard. Several were late, being returned after the Annual Report writing has begun.

## Part 2: YACHTS

**Yacht Visits.** During this season there was a total of 8 yacht visits by 6 different yachts see Table 2. The total of individuals visiting South Georgia on yachts was 74 individuals (season 2015-16 it was 160).

**Table 8. Yacht Visits for the Period 01 July 2016 to 30 June 2017.**

**Yacht Landing Sites.** Yachts conducted beach landings at a total of 21 different sites during this season (29 last season).

### Part 3: EXPEDITIONS

There were a total of 5 planned expeditions this season, one was abandoned due to poor weather. (Table 9). Support was provided by Yachts *Selma*, *Pelagic*, *Pelagic Australis* and the cruise ships *Polar Pioneer* and *NG Orion*.

**Table 9. Expeditions to South Georgia season 2016-2017**
