SUMMARY ANNUAL TOURISM REPORT – SEASON 2017-18

INTRODUCTION

1. This report covers the period from July 2017 to June 2018. This year saw a record year number of cruise ship passengers with a total of 10,109 tourists arriving on 82 cruise ships (last year 68). This exceeded last year's passenger numbers by 1,163. Two visits were cancelled – one by cruise ship Sea Spirit due to a medivac and one by yacht Chugach.
2. Over this season 17,873 individuals visited South Georgia, this figure includes cruise ship passengers, crew and expedition staff and yachts.

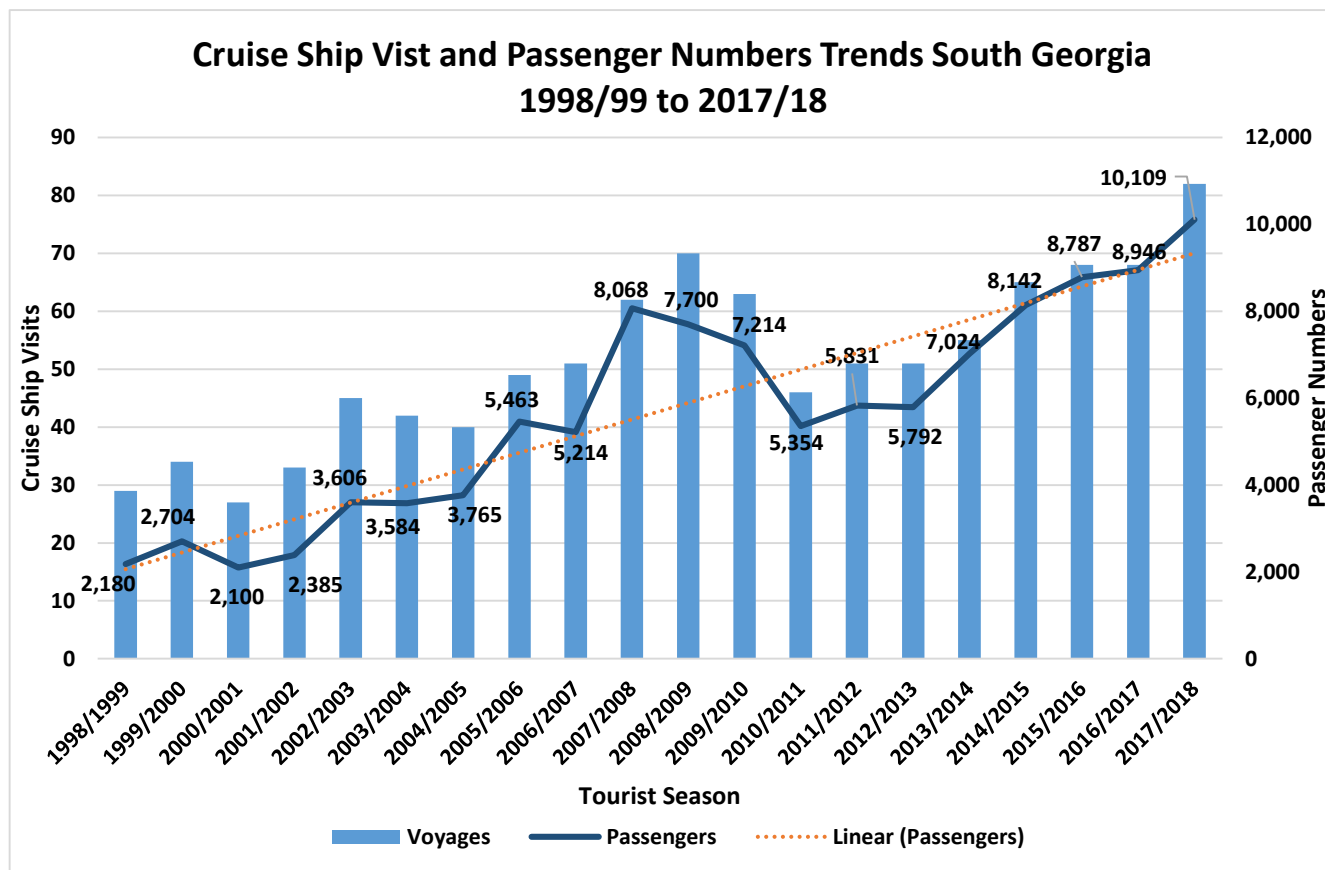

Part 1: CRUISE SHIPS

3. **Cruise Ship Visit Summary.** A total of 28 (23 in 2016-17) different cruise ships made 82 (68 in 2016-17) separate visits to South Georgia during the 2017 - 2018 season. The *Bremen* made the most trips with 6. Most other ships visited on 2 to 4 separate occasions. *Seabourn Quest* was (as per 2016-17) the largest passenger carrying ship this season with 419 passengers. Table 1 summarises the cruise ship activity since 1999.

4. **Cruise Ship Voyage and Passenger Number Trends.** There were three new vessels this season, *Island Sky*, *Ocean Atlantic* and *Silver Cloud*. *Sea Adventurer* arrived with a new name – *Ocean Adventurer*. There was one new tourist operator, Albatros Expeditions, who chartered *Ocean Atlantic* for their trips. A summary of vessel visits and passenger numbers is at Figure 1.

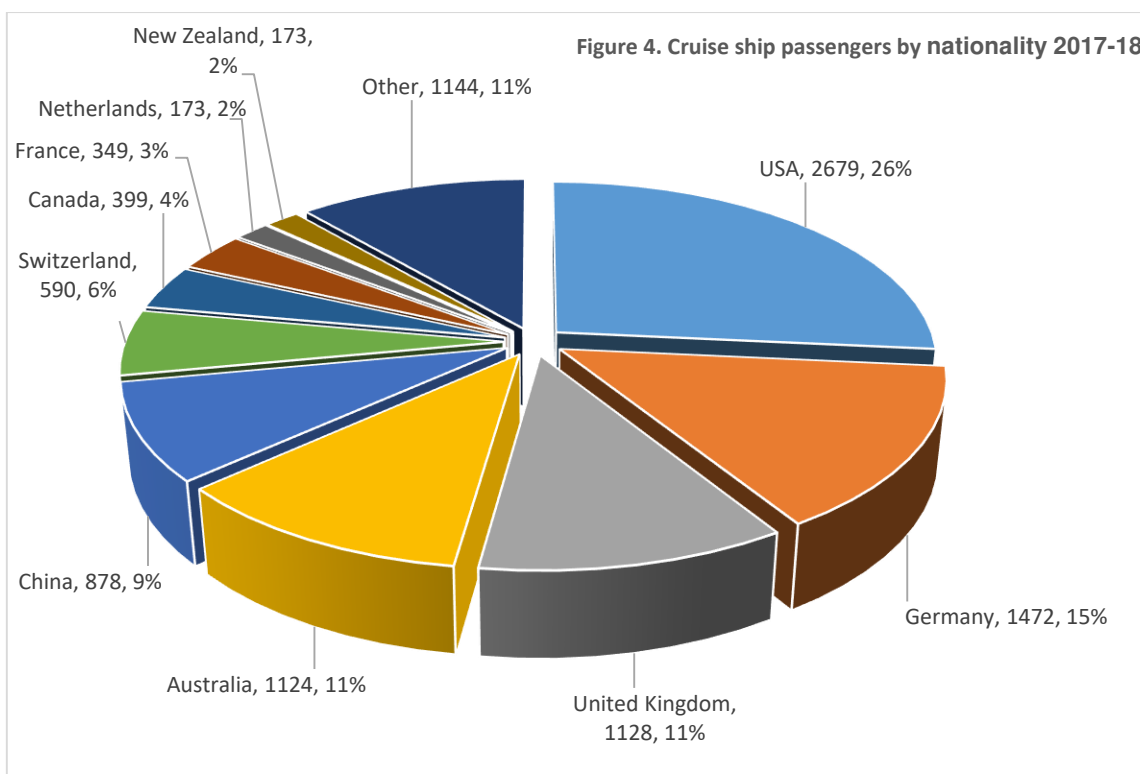

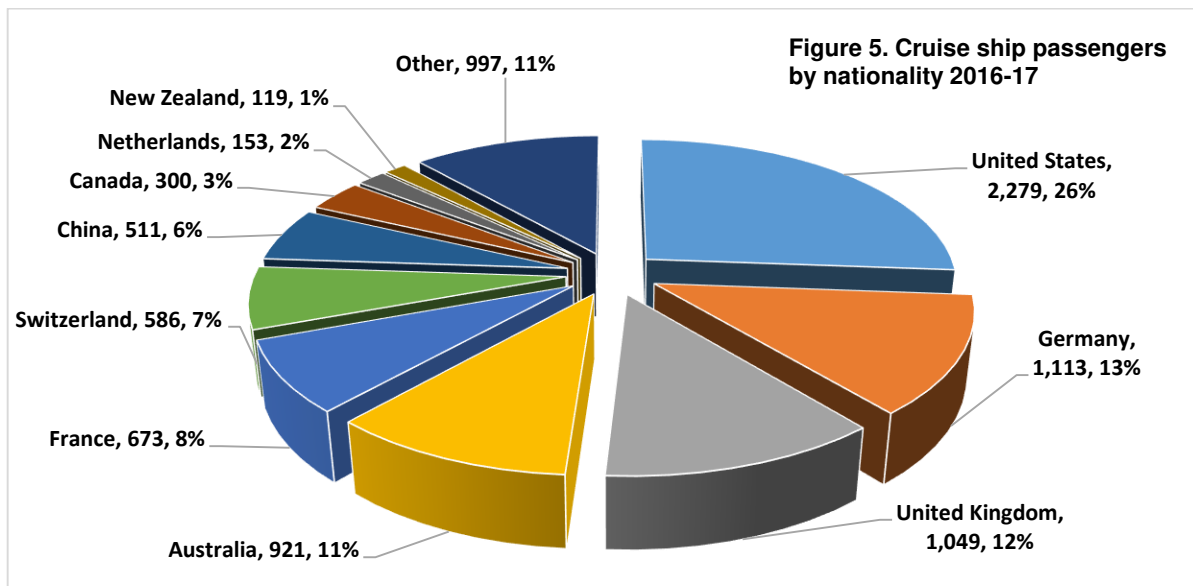

5. **Passengers and Cruise Ship Visits.** The breakdown of total passenger numbers by cruise ship is shown at Figure 2, with *Bremen* carrying the most passengers over the season. The number of separate visits by each cruise ship is shown at Figure 3, *Bremen* with the most separate visits at 6.

6. **Passenger Nationalities.** For this reporting period there were a total of 59 passenger nationalities. The top ten nationalities represent approximately 89% of the overall passenger numbers as shown in Figure 4 below with all remaining nationalities adding to 11% of the total. The majority of passengers came from English speaking countries. For comparison, the passenger nationality composition for the 2016-17 season is shown in Figure 5.

7. **Expedition Staff.** There was a total of 1,089 expedition staff (906 in year 16/17) from a total of 46 countries (42 in year 16/17) with an overall ratio of approximately one staff member to each ten passengers. The nationality breakdown was broadly the same as last year. The majority of staff were American with 196 staff (18%), followed by Canada with 186 staff (17%), Germany with 155 staff (14%), United Kingdom with 134 staff (12%), Australia with 77 staff (7%), Argentina with 41 staff (4%), New Zealand with 36 staff (3%) and France with 34 members of staff (3%).
8. **Cruise ship Crew.** There were 6,498 members of crew from 79 nationalities. As in previous years, the majority were from the Philippines with 3,433 (53%).
9. **Cruise ship landing sites prior to Arrival in South Georgia.** Of the 82 cruise ship visits, 65 landed in the Falkland Islands prior to coming to South Georgia (previous season 52). 10 came directly from the Antarctic, either the Antarctic Peninsula or associated islands. The remainder from Montevideo and Ushuaia.
10. **Cruise ship landing sites Post South Georgia.** - Of the 82 cruise ship visits 59 went on for their next landing within Antarctica or associated islands, 13 ships went on to land in the Falklands, 5 vessels went to Tristan da Cunha, 1 to Buenos Aires, 2 to Montevideo, 1 to Rio de Janeiro, and 1 to Capetown.
11. **Passenger numbers on visiting vessels.** Those ships visiting with between 50 and 200 passengers on-board represented 88% of the total over the season; cruise ships with greater than 200 passengers was 11%. Table 2 shows the breakdown for season 2017-18.

12. **Activities Undertaken.** A total of 49 different sites (last year 56) were visited by cruise ships during the 2017-2018 tourist season. The variety of activities undertaken at these sites and passenger numbers is summarised at Table 3. Boat landings by Zodiac recorded the highest activity number with 49,491 passengers landing by small boat. This number rises to 57,952 when crew, staff and others are included.

Table 3. Activities undertaken by cruise ship passengers at South Georgia 2017 - 2018 (Figures in brackets 2016 - 2017 season)

14. **Extended Walks.** Extended Walks (EW) were undertaken on 116 occasions (88 in the previous season) at 19 sites (24 in the previous season) see Table 5. The Shackleton Walk has increased in popularity with 36 separate visits (19 in the previous season) with a total of 1,505 passenger visitors (828 in the previous season). Extended walking at Grytviken has increased in popularity with 1,163 passengers completing walks on 14 separate occasions.

The Shackleton walk remains the most popular extended walk. The trend for access for the Shackleton EW is shown in Figure 6 with 1,505 (15% of overall cruise ship visitor numbers) passengers taking part this season.

15. **Kayaking.** More cruise ship passengers than ever took part in kayaking activities this year. The most popular kayaking sites were Gold Harbour (140 passengers kayaking), Grytviken (131 passengers kayaking) and Larsen Harbour (131 passengers kayaking).

Table 6: Kayaking activity season 2011/12 to 2017/18

2013/14	612	23
2012/13	462	29
2011/12	209	15

16. **Diving.** Scuba diving was undertaken by passengers, staff and crew at 16 sites with a total of 180 cruise ship passengers taking part in this activity.

Cruise Ship Visit Sites of Particular Interest

17. **Prion Island.** The trend for numbers of passengers and visits has risen this season. The total number of small boat landings this season has increased to 41 (30 last season), while the total number of passengers has increased from 2,358 last season to 3,358 (Figure 7). When including crew and expedition staff this figure is 3,839 (last season 2,737).

Figure 7. Prion Island Cruise Ship Passengers Trends 1998-2018

18. **Grytviken and King Edward Point.** All cruise ships are required to visit Grytviken, this is part of the customs and tourism clearance process. The first cruise ship of the season was the *Ushuaia* on 22 October 2017 with 88 passengers. The last ship was *Planicius* on 3 April 2018 with 105 passengers.
19. **Grytviken Church.** The church at Grytviken was used on 5 separate occasions for specific organised events ranging from a wedding to Christmas carol services, concerts and a memorial service.
20. **Post Office.** The Post Office was taken on board a cruise ship on two occasions this season (8 last season). The 'Enduring Eye ' Hurley Exhibition which includes original lantern slides on loan from the Royal Geographical Society remained open this year in the former Slop chest (new Post Office building).
21. **Medical Assistance.** During this season there were 3 recorded requests for medical assistance; all were denied.

General Cruise Ship Matters

22. **Cruise Ship Bird Strikes.** The Post Visit Report forms contain a section requiring the Permit Holder to provide any detail of bird strikes/bird collision with the ship. There were 212 recorded incidences of birdstrikes this season (last season 107) from the 12 vessels which reported them. The comments received during this season from cruise ships and yachts are detailed below (Tables 7 and 8):

09-MAR-2018	Cumberland Bay - clear	The light reduction measures worked 100% on previous day at South Georgia, as in previous trips during the season. The bird strike occurred only at the moment the search lights were necessary to avoid floating ice that could potentially endanger the vessel on approach and anchoring in King Edward Point. All birds were recovered, classified and released by AEL (seabird specialist), with help of the Expedition Staff under close supervision. Only 5 birds were too groggy to be released immediately (4 Common Diving Petrels and 1 Black-Bellied Storm-petrel). Those spent the night in boxes and were successfully released with the first light on 10-03-2018.	Antarctic prion	10	0	10

23. **Seals.** This season it was reported that one passenger and one Expedition Leader received a fur seal bite. There were two recorded incidents of fur seal entanglements; both at St Andrews Bay.

24. **Biosecurity Failures.** A new system for recording biosecurity failures was in place this season. 583 cruise ship passengers were recorded as having some kind of biosecurity failure. This equates to approximately 10% of those checked. The failures included, mud on the soles of boots and plant material, seeds or grass stuck to Velcro fasteners. The numbers of passengers checked per vessel ranged from 10-100%. Unsatisfactory cleaning of boot soles was the most common problem. The second most common problem was organic material entwined in Velcro fastenings.

25. **Expedition Leader (EL) Briefings.** This season 10 new ELs were briefed at KEP (previous year it was 16).
26. **New Operators, Vessels and Observers.** There were three new vessels this season, *Island Sky*, *Ocean Atlantic* and *Silver Cloud*. There was one new tourist operator, Albatros Expeditions, who chartered *Ocean Atlantic* for their trips. A Government observer embarked on board *Island Sky* and *Ocean Atlantic* to monitor expedition staff procedures and all was found to be satisfactory.
27. **Post Visit Reporting.** Of the 82 cruise ship visits this year all have returned Post Visit Reports. The procedure for Post Visit Reporting has changed this year and all reports are now completed using a proforma that has been agreed with IAATO. Post Visit Reports are returned to GSGSSI in Stanley and data entry takes place there.

Part 2: YACHTS

28. **Yacht Visits.** During this season there was a total of 14 yacht visits by 12 different yachts. See Table 9. One yacht visit 'Chugach' was cancelled this season and one yacht report from Wanderer III with 2 passengers was not received. The total number of individuals visiting South Georgia on yachts was 118 (last season it was 74).

29. **Yacht Landing Sites.** Yachts conducted beach landings at a total of 76 different sites during this season (21 last season). This increase is accounted for by the landings during the SGHT rodent monitoring phase.

Part 3: EXPEDITIONS

30. There were a total of 3 planned expeditions this season (Table 10). Support was provided by Yachts *Novara* and *Pelagic Australis*.
